

MEDICINE LUDO

Roll the die · answer the card · race home — standard board, A4

THE NUMBER YOU ROLL IS ALSO THE DIFFICULTY OF THE CARD

1	2	3	4	5	6
Easy	Mid Easy	Medium	Mid Medium	Difficult	Very Difficult
10 pts · 20s	20 pts · 25s	30 pts · 30s	40 pts · 30s	50 pts · 40s	60 pts · 45s

ROLL — the die gives both your distance and your card. Answer right and move forward by the roll; answer wrong and move back half the roll, rounded down, never past your own START.

PIECES — both of yours begin on your START square. Land on a square holding only opponents and they go back to their own START. The four ★ START squares are safe: nothing is captured there.

WINNING — roll a 6 and answer correctly to go again, at most twice running. First player to get both pieces HOME wins; in 2v2 it is the first team with two pieces home between the partners.
